

where yesterday
meets tomorrow

Built with an exciting blend of wood, aluminium and premium PU painted components, Radio™ reflects a pleasing, classic look that belies its functionality and features.

The Radio™ suite comprises of an extravagantly finished PU painted table top with seasoned natural wooden legs at one end and mounted on a credenza unit at the other end.

An optional storage unit adds further dimension to the suite. Thoughtfully designed Radio™ includes optimum utility and storage space.

Radio™ derives its name from the shape of its credenza which is inspired by the looks of a classic radio - a throwback to the 60's - a steel body with rounded edges and radio knob-like handles.
