## AN ARRAY OF FEATURES:

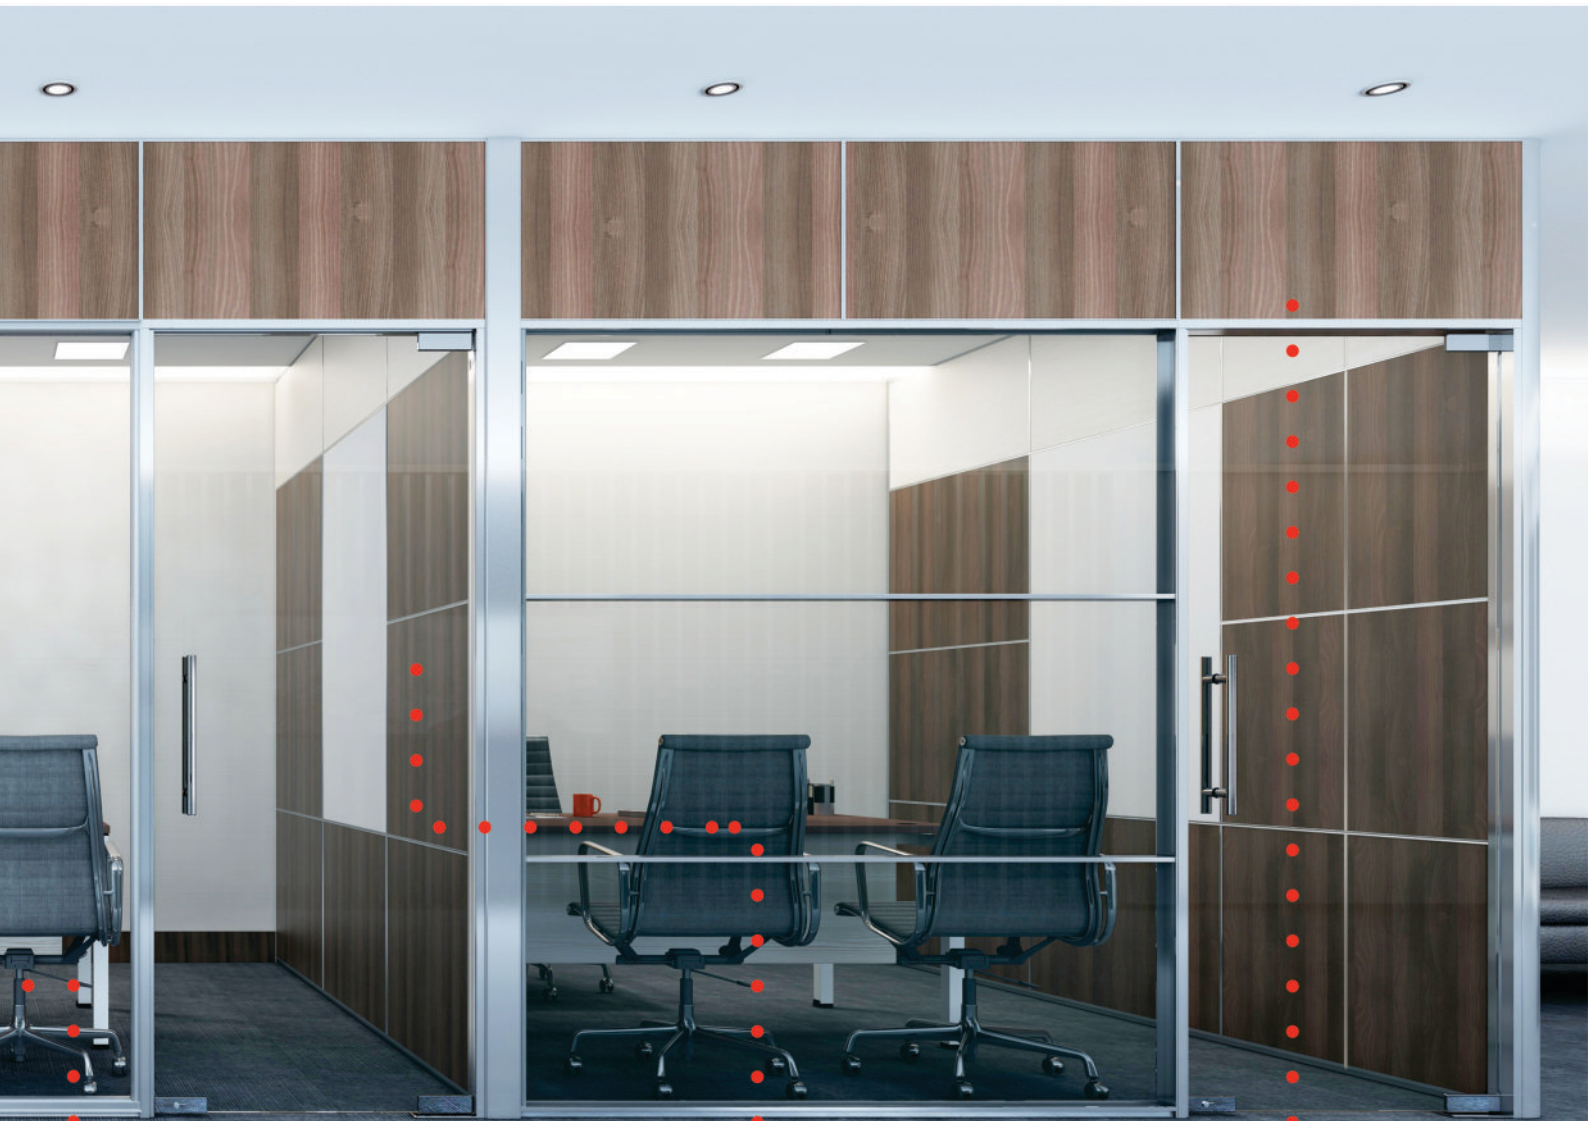

An 83mm thick, robust, modular, full height partition system that has the ability to transform any area into a structured office space. The system allows to create fully glazed, semi glazed and various tiled options, seamlessly integrated to each other.

02

Structured and sturdy double glass partition with optional concealed Venetian blinds. Select between a fully vertical or a segmented arrangement.

Choose from an array of hinged solid doors, with or without vision panels and frameless toughened glass doors complete with all accessories.

Single glazed partitions are an integral part of the system, effective in creating a minimal, frameless look by virtue of an almost invisible H section for every glass segment.

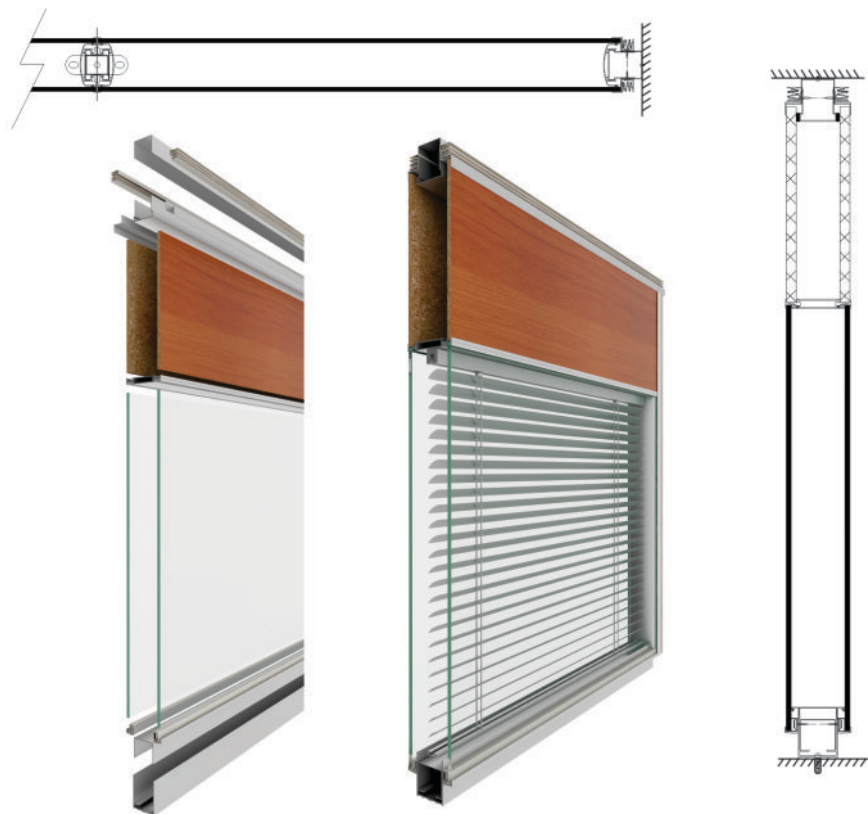

Intelligently designed components allow for any horizontal or vertical combination to suit functional and aesthetic needs of design with wide choice of tiling material.

Max. vertical section height is 2.4M. Raise the wall height up to 3.0M using quarter sections. Optional concealed posts can anchor the system floor to true ceiling for maximum stability.
